A1 · Performer

Three pictures, two moves / Brass

Quarter steps. 8-to-5 steps: 1 step = 0.625 yd. Side 1 is left on the chart; Side 2 is right. Front is the bottom. Inside means toward midfield; outside means toward a goal line. Move directions use field axes, not performer facing.

Set	Counts	Arrival coordinate (8-to-5 steps)	Move into set
1. Opening	0	Side 1: on the 10-yard line; 16 steps in front of back sideline	Opening position
2. Arrival	16	Side 1: on the 30-yard line; on back hash	Hold 0–2; Travel 2–6; Hold 6–8; Curve 8–12; Hold 12–16. Travel 41.489 yd. Counts are local to this move. Peak step size is not listed here. Problems reports conservative spacing and peak-stride bounds.
3. Finish	8	On the 50-yard line; 5.25 steps behind front hash	Toward Side 2 and front sideline. Average 1.79 steps per 5 yd; peak 1.19 steps per 5 yd (eased).

Step size is steps per 5 yd: larger numbers mean smaller steps. Eased moves show average and peak sizes. Counts describe the incoming move. • Squidware

24 counts · 25.000 seconds · page 1 of 1

Ranges use absolute show counts. BPM ramps are linear over counts. Fermatas hold positions after that count’s click; recording time continues. Offset: -1.25 seconds.

Show counts	BPM / fermata	Start seconds	Duration seconds
0–5	60.000 → 60.000 BPM	0.000000	5.000000
5	Hold 1s	5.000000	1.000000
5–16	60.000 → 60.000 BPM	6.000000	11.000000
16–24	60.000 → 60.000 BPM	17.000000	8.000000
